

For people coming from overseas

Follow these rules to prevent livestock diseases

- ◇ Do not enter a barn and a nearby area if you have entered into Japan from other countries within the previous seven days. If it is unavoidable, take necessary measures such as washing a body, changing clothes etc.

- ◇ Do not bring objects that are not necessary for taking care of animal into the barn.

- ◇ Wash or disinfect the object that has been used in another livestock facility before bringing it into the barn.

- ◇ Do not bring clothes and shoes that have been used outside Japan within a certain period(*1) into a barn and a nearby area. If it is unavoidable, take necessary measures, such as washing and disinfecting of the object, before bringing it into the area.

- ◇ Disinfect your hands and shoes and change clothes when you enter a barn and a nearby area as needed.

For details, consult with responsible person of the farm that you will be visiting.
