

To everyone from overseas living in Miyazaki Prefecture

~ For prevention of diseases such as foot-and-mouth disease, African swine fever, bird flu etc.~

Please do not bring or put meat or egg products in your carry-on luggage, check-in luggage and packages sent from home.

Example of packages from home

Cooked meat products are prohibited too!

Prohibited items (ham, sausages etc)

- ◆ The pathogens detected in meat or egg products increase the risk of infection to livestock!
- ◆ If exposed to precious livestock, it will cause enormous damage to the livestock industry!

Action to take if you find meat or egg products from overseas!

Notes on overseas packages (e.g. international mail etc.)

- Please **do not include meat or egg products** in international mail. In addition, please inform family members to **not send meat or egg products to Japan**.
 - If **meat or egg products are included** in your international mail, please **notify** your nearest Animal Quarantine Service immediately.
 - If you do not notify the Animal Quarantine Service for inspection, you will be **subjected to penalties (max. fine of 300,000yen)**.
- ※ **Inspected mails will be stamped.**
